## commercial printing

RPM print a vast range of commercial literature including brochures, catalogues, leaflets, stationery and much more.

We have the very latest equipment including a 5-colour Heidelberg press and two colour perfecting press.

Short runs in full colour are now viable with our latest DocuColor 2060 which gives you the opportunity to print just what you want in full colour and allows for test-markets and personalised documents.

We can combine traditional offset litho and digital printing to give the most cost-effective solutions and arrange for the mailshots to be despatched to your target audience.

## auction catalogues

We have serviced this area of the market for over 20 years and with our mix of digital and litho services, cover the whole country.

We accept images via e-mail or we scan in photographs supplied by you.

Our service is extremely fast to match the required tight schedule the market demands. We complete our service by stuffing and packing overnight.

## direct mail

Personalised mailings from your database, A4 letterheads overprinted at 135 per minute.

We can also print your letter heads and store for subsequent use!

We can even mailmerge onto A5 sheets. Stuffing, packaging, pdf and poly wrapping is an extension of this service. A mailsort service is available to save money on your postage.

## technical manuals and documentation

RPM offer a complete print on demand service that is ideal for the production of manuals, price lists and supporting documentation.

Digital colour is now available to add extra impact economically.

As a Xerox Premier Partner we have the latest DocuTech and DocuColor equipment that produce 600 dpi quality and give cost savings compared with traditional printing together with rapid production times.

We also archive and digitise documents creating pdf files.
